

Sensory Processing Red Flags

Some children **seek**...

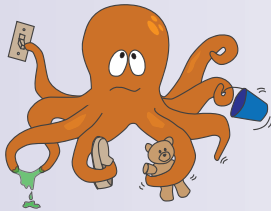

Some children **avoid**...

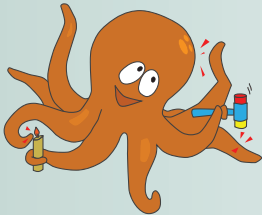

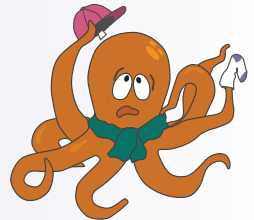

Some children chew on clothing or seek intense foods.
Others avoid specific food textures or refuse to let utensils touch their mouths.

Some children seek out light, sound and commotion.
Others respond emotionally to bright lights or loud noises.

Some children rush to touch everything in sight.
Others struggle even to tolerate clothing.

Some children seem to feel no pain and seek physical input.
Others feel hurt by the lightest touches.

Some children **seek** in one area **AND avoid** in another!
